Soft Natural Cotton for Long, Luscious Lashes

Why use synthetics, when you can build long, full lashes naturally? **DC Cotton Flock** is a soft, 100 percent natural powder comprised exclusively of whole cotton fiber. Ideal for volumizing and extending lashes to their fullest, this micro-fine cotton powder gently adheres to lashes for a high definition effect.

This powder may also be used in other cosmetic applications, particularly in make up products to enhance coverage and fill in fine lines. Since the refractive index of DC Cotton Flock closely matches that of human skin, it provides soft, natural looking coverage without looking white or chalky.
