

# Distinctive® Sandalwood Nut Oil

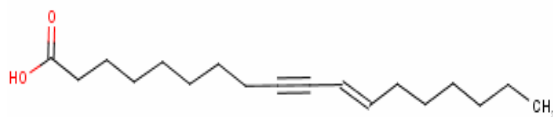

INCI: Fusanus spicatus Kernel Oil

April 24, 2015

DC4025

## Powerful Healing Benefits

The Australian sandalwood tree may better recognized for its aromatic wood, with a soothing aroma and noted healing properties. However, to the aboriginal people of Australia, this sacred tree is also known as a source of life-giving “bush food”. The nuts of the sandalwood tree have been consumed and utilized and for years in their cuisine and for medicinal use. These highly nutritious nuts contain upwards of 50% oil, rich in ximenynic acid, a C<sub>18</sub> polyunsaturated fatty acid (PUFA) with an unusual triple (acetylenic) bond content.

Ximenynic acid

**Distinctive® Sandalwood Nut Oil** is a rich source of ximenynic acid. The unique composition of this oil provides unsurpassed resistance to oxidation and exceptional bioactivity for a wide variety of cosmetic and skin care applications. Distinctive® Sandalwood Nut Oil offers immediate relief from dry damaged skin, absorbing readily to improve skin elasticity, increase dermal strength and reduce the appearance of fine lines.

### BENEFITS

- ◆ Anti-aging
- ◆ Anti-inflammatory
- ◆ Soothing
- ◆ Moisturizing
- ◆ Highly skin compliant
- ◆ Healing/Regenerative
- ◆ Antibacterial
- ◆ Anti-oxidant
- ◆ Protective
- ◆ Improves microcirculation

### TYPICAL PROPERTIES

Appearance	Golden / Transparent Yellow Liquid
Odor	Characteristic
Specific Gravity	0.90 – 0.95
Ximenynic Acid (%)	30.0 – 35.0
